

Career Objective

Aspiring Cloud Engineer with a strong background in mobile application development and growing expertise in AWS Cloud. Skilled in EC2 setup, deployment, and cloud-based architecture concepts. Currently enhancing knowledge through Udemy, YouTube, AWS Skill Builder, and hands-on labs while preparing for the AWS Certified Cloud Practitioner Exam. Seeking a student or entry-level Cloud/DevOps position to apply technical, analytical, and cloud skills in real-world environments.

Technical Skills

Cloud & Infrastructure

AWS: EC2, S3, IAM, VPC Management, Server Setup & Deployment.
DevOps: Linux (CLI & Administration), Git/GitHub, Docker, CI/CD Pipelines.
Integrations: RESTful APIs, GPS Data, Third-party AI Services.

Programming & Frameworks

Languages: Python, Dart, JavaScript, SQL.
Development: Flutter (Mobile/Web), Django, Node.js.
Databases & Tools
Databases: PostgreSQL, MySQL, SQL Server.
Tools: Postman, SSH, Jira, Trello.

Work Experience

HiWi – Mobile Application Developer | Johannes Gutenberg University Mainz | Mainz, Germany | Present

- Developing a Forest Tracking and Environmental Safety Application focused on climate and environmental data monitoring.
- Integrated API, AI, GPS, and Satellite Data for real-time forest condition analysis.
- Utilized AWS Cloud for hosting, storage, and processing environmental data.
- Worked with Flutter for front-end and AWS Services for scalable data management.
- Gained practical experience in cloud architecture, data pipelines, and environmental analytics.

Flutter Developer | Teczo Sdn. Bhd. | Kuala Lumpur, Malaysia | 2023

- Built XR-Hub Condominium Management System, improving communication and automation for property management.
- Automated workflows, billing, and maintenance tracking to improve efficiency.
- Strengthened teamwork, problem-solving, and deployment experience.

Projects

[AWS Practice Environment \(Self Project\) – Ongoing](#)

- Set up and managed AWS EC2 instances for app testing and server configuration.
- Practiced with security groups, key pairs, IAM, and S3 buckets.
- Deployed simple applications and monitored AWS billing and usage.

[Steko Health Checker Application – Final Year Project](#)

- Developed a health monitoring app to track vital signs and health data.
- Integrated alerts, profiles, and health trends visualization.
- Tech Stack: Flutter, Node.js, Firebase.

[Real estate – Condominium Management System \(Flutter Web & Mobile\)](#)

- Developed a responsive cross-platform dashboard using Flutter, enabling seamless property management across web and mobile devices.

- Engineered comprehensive modules for resident and staff management, including role-based access control and profile administration.
- Implemented a real-time statistical dashboard to visualize occupancy rates, maintenance requests, and financial metrics.
- Integrated a task scheduling system for facility maintenance, reducing improved administrative response times.
- Built a robust billing and payment notification system, allowing residents to view outstanding balances and receive payment reminders.

Publications

STEKO-SD: A MOBILE HEALTH SOLUTION TO ASSIST SELF-CHECKING OF METABOLIC SYNDROME	(On going)
BEST4U.COM: A CREATIVE PLATFORM FOR SECONDHAND ITEMS TRANSACTION	May,2022

Education

MASTER OF SCIENCES HIGH INTEGRITY SYSTEMS – Frankfurt University of Applied Sciences. Majors: Computer Science.	(On going)
BACHELOR OF COMPUTER SCIENCE – International Islamic University Malaysia. Majors: Software Engineering.	August 2023

Certifications & Learning

- AWS Certified Cloud Practitioner (Exam Preparation Ongoing).
- Learning from Udemy, YouTube, AWS Skill Builder, and AWS Labs.
- Practical AWS experience with EC2, IAM, and Cloud fundamentals.
